

Mudguards

Vehicle Technology

Plastic

Product Features

- Sizes covering tyre sizes: 145 x 13 to 195 x 14 on single axles.
- 1 sizes covering most 12, 13 & 14" tyres on tandem axles.
- Extremely tough and durable.
- Manufactured from regenerated polyethylene which is recyclable, resistant to UV, oil, diluted acids, petrol, alcohol, saline solutions and most organic solutions.
- Easily attachable via 4 screws on single mudguards & 6 screws on tandem.
- Moulded indentation to take side reflector (available separately).
- Modern design with excellent flexibility even at extreme temperatures (-40°C to +80°C).

Galvanised Steel

Product Features

- Designed and built for maximum all-weather protection.
- Galvanised steel with substantial zinc coating for longevity.
- Flat inner and rolled outer edges for greater protection.
- Extra strengthening on tandem mudguard.
- Universal fitting and compatibility.

AL-KO's galvanised steel mudguards are designed to provide the very best protection under the most adverse weather and road conditions.

The galvanised steel range of single and tandem mudguards are manufactured to strict quality control and quality assurance procedures, using 275 grams of zinc for each square meter of coating. Besides the finest materials, the design too, ensures a long trouble-free life. The tandem mudguards also have an integral strengthening plate to counteract denting and provide exceptional rigidity.

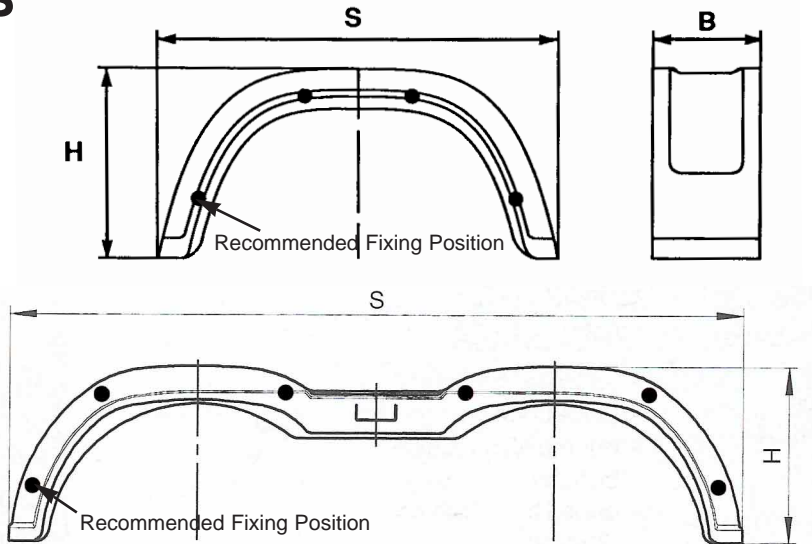

Mudguards
